

APLICA

Protector de Cerámica

CERAMIC-PROTECTING ADDITIVE

Makes it easier to clean after grouting

Single-component

Easy to apply

DESCRIPTION

aplica Protector de Cerámica is designed to protect porous and non-porous tiles from possible pigment stains. Avoid joints. Easy to apply. Single-component product. Non-flammable. Non-permanent product.

WARNINGS AND RECOMMENDATIONS

Do not apply this product when frost or rain are forecasted.
Do not apply at temperatures below 5°C or above 35°C.
Use within 1 year of packaging date. Store the product in its original closed packaging in a dry, covered place.

APPLICATIONS

Specially-formulated to protect porous ceramics when coloured mortar is applied like joints.

INSTRUCTIONS FOR USE

1. Before applying, ensure that surface to be treated is dry and free from dust, grease and efflorescence.
2. Shake well to mix the product
3. Apply undiluted aplica Protector using a cloth, avoiding joints between tiles.
4. Apply two coats, leaving each coat to dry for 20 minutes.
5. Then grout the joints between the tiles
6. Once hardened the joint, remove the protector with water.
